PO Box 533, Levin

VERNADO
GROWING SMARTER
SEED | FERTILIZER | GROWTH REGULATORS

Add up to an extra 15% growth with

ENERGHI

(Triacontanol)

- 🌱 Commonly used to enhance crop production, growth, yield, photosynthesis, protein synthesis, uptake of water and nutrients, nitrogen-fixation, enzymes activities and contents of free amino acids
- 🌱 Can help improve the rate and extent of plant recovery from stress, application of selective herbicides or suffering from adverse climatic conditions
- 🌱 Helps to increase cell widening and thickening
- 🌱 Helps increase mineral uptake from soil
- 🌱 Helps to promote more tillering
- 🌱 Helps to increase root mass and length
- 🌱 Application rate for pasture: 25mls per/Ha
- 🌱 Apply with Gibboost and Liquid N
